

iData

DISTRIBUTION

Leading distributors of automated identification and mobile computing technologies in southern Africa.

OVERVIEW

iData Distribution is a leading Value Added Distributor of global brands of bar coding, data collection, printers, RFID, wireless networking and mobile computing technologies.

Focussing exclusively on servicing the reseller channel market throughout southern Africa, iData differentiates itself from traditional distributors with a team that brings decades of intellectual capital and expertise. iData takes this one step further, providing a range of invaluable services to key vertical markets including retail, warehousing, transport and logistics and manufacturing.

iData Distribution aims to be the channel partner of choice; with an in-depth knowledge of the channel and specialist technology driving business efficiency, while reducing costs and supporting business growth in the reseller sector.

TECHNOLOGY PARTNERS

iData Distribution represents the world's leading brands including Aeroscout, ALK Technologies, Cisco, Datalogic, Datamax-O'Neil, DRS Technologies, Intermec, Microscan, Seagull Scientific and Teklynx.

PRODUCTS

Bar Code Scanners – Extensive range of world leading Datalogic and Intermec scanners for every application including handhelds for general purpose and industrial, retail presentation and industrial fixed mounted scanners.

Mobile Computing – The latest technology in handheld terminals, leading rugged pen key terminals and computers for transportation environments and top-of-the-line fixed mounted computers.

Wireless Networking – The latest releases of Cisco wireless access points and solutions for seamless integration into existing networks.

Printers – Extensive range of world leading Intermec and Datamax-O'Neil thermal and thermal transfer label printers, value printers, performance printers, specialty printers and mobile printers designed to suit any environment or application.

RFID – Through exclusive distribution relationships with Intermec and Datamax-O'Neil, iData offers a full range of scalable RFID products. iData distributes the complete suite of Intermec fixed handheld and vehicle-mount readers, printers, tags, labels and inlays and Datamax-O'Neil RFID printers.

Software – iData provides a comprehensive range of printer software and drivers for Intermec and Datamax-O'Neil, two global brands in bar code printing, as well as software solutions that manage mobile data collection and RFID systems.

CHANNEL PARTNER PROGRAMME

To ensure a high level of service and first-class technology standards are maintained, iData Distribution has established a Channel Accreditation Programme to produce certified, knowledgeable and skilled technology partners, who deliver peace-of-mind to the end user.

PROSCAN GROUP

iData Distribution, previously known as Proscan Distribution, is a part of the Proscan Group, which was established in 2002 and is today one of the leading specialists in supply chain, automated data collection and mobile computing technologies and solutions in southern Africa.

SERVICES

iData provides a range of indispensable professional services by highly trained personnel and technicians to ensure that its customers' systems are operating to their maximum capacity, achieved through technical support programme, workshop repairs, preventative maintenance, support options, site surveys, installation and commissioning and staff training.

BBBEE STATUS

iData is totally committed to the seven pillars of Broad Based Black Economic Empowerment (BBBEE) receiving a Level 4 BBBEE contributor. The company has achieved 25% Black ownership through the Employee Trust, allowing all staff members to participate in its future growth and financial empowerment.
